

Nevada Humane Society's Spay/Neuter Program

Nevada Humane Society's low-cost Spay/Neuter clinic is funded by donations and available for low-income residents of Northern Nevada. Please visit www.NevadaHumaneSociety.org to make a donation in support of this program. Services are reserved for cats and dogs, and those over the age of 8 must have pre-op bloodwork performed prior to the appointment, therefore by another veterinarian.

Appointments are limited and in high demand. If you are not in need of financial assistance we encourage you to use your own veterinarian. We strongly recommend that all pet owners establish a relationship with a local, full-service veterinary hospital to provide for the pet's health throughout its lifetime.

Services Offered at Nevada Humane Society in Washoe County (2825 Longley Lane in Reno):

Trap-Neuter-Return (TNR) for feral cats are held Wednesdays and Sundays. Drop off is 7am to 8:30am. Feral cats must be three months old or at least 3lbs in weight. Cats must be in a humane trap and accompanied with a plastic carrier in good repair to go home in. All cats are spayed/neutered, vaccinated and eartipped. For more information on this program, please call 775-856-2000 ext. 337.

The Spay/Neuter clinic operates Monday through Friday, excluding some holidays. To schedule an appointment, please call **775-856-2000 ext. 333**.
